

Increasing access to generic medicines

As the world's leading manufacturer of generic medicines, we are committed to creating quality, affordable medicines for all.

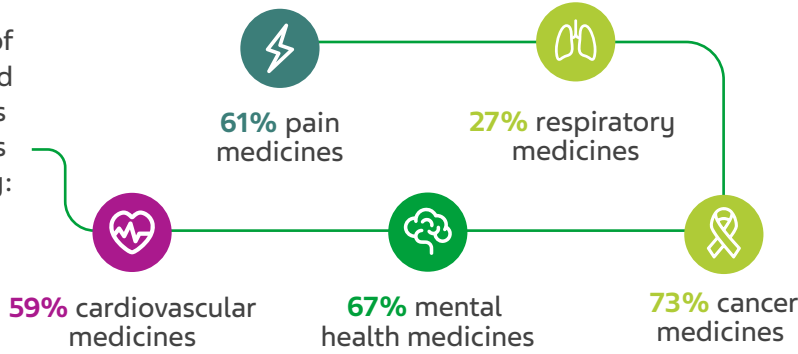

Increasing access to quality, affordable medicines

Teva supports nearly **200 million patients** every day

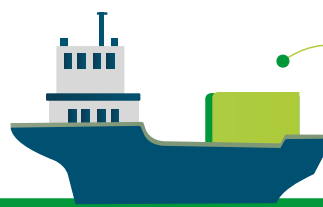

Teva manufactures many of the products on the World Health Organization's Essential Medicines List, including:

Portfolio of **3,600+ products** in nearly every therapeutic area

Largest pharmaceutical supply chain

Every hour there is a plane in the air, a ship on the sea, a truck on the road, delivering Teva's medicines

Saving billions of dollars

37,000 employees

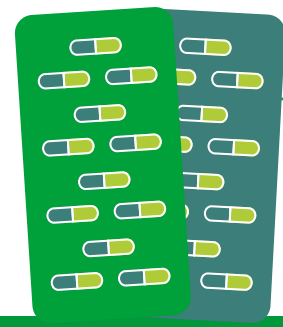

53 global manufacturing sites

60+ markets

Teva's generic products helped patients and healthcare systems save more than **\$43 billion in 2020**

US \$28.8 billion saved

Europe \$9.6 billion saved

With greater access, more people and more healthcare systems can receive quality medicines.
